

- ❖ IIS can host your WCF Service.
- ❖ IIS will be started / stopped automatically along with windows o/s.
- ❖ Advantage of Hosting WCF Service in IIS:
  - You need not worry about starting your WCF Service Console Application manually.
- ❖ IIS can only be installed in Windows o/s.
- ❖ IIS supports HTTP protocol only.
- ❖ If you don't have other protocol clients, then you can prefer IIS.

- ❖ Create WCF Service in IIS Directly.
- ❖ Publish WCF Service into IIS.
